WEATHER. For Kentucky
Probably Showers Saturday

HOPKINSVILLE KENTUCKY, SATURDAY, AUGUST 5, 1916.

VOL. 37—No. 94

EDITORIAL COMMENT.

HEADLESS B. M. TICKET

Mayor Sam W. Booker, of Eminence, aged 62, died Wednesday.

A watermelon grower at Owensville, Ind., got \$250 for a car load of melons.

The town of Bicknell, Ind., went dry by two votes in a total vote of 1,486.

The Deutschland made a safe passage out of the capes and eluded the British patrol ships.

Mrs. Letitia Bristow will celebrate the 100th anniversary of her birth, in Louisville, to-day.

Sergt. Geo. Zautner, a regular army man, has been commissioned as captain of the Owensboro company.

Sir Roger Casement was hanged in London Thursday, after being first officially deprived of his title of nobility.

Three Zeppelins raided London Wednesday morning, but the censors conceal the extent of the damage done.

Blair's Creek, a small stream ten miles long, in Claiborne county, Tenn., was flooded by a cloudburst Wednesday and 36 lives lost.

Ernest J. Howell, of Owensboro, the newly-appointed superintendent of the State Reform School at Greenup, took charge Wednesday.

Ernest J. Howell, of Owensboro, the new Superintendent of the Kentucky House of Reform, is critically ill at Lexington following an operation for gall stones.

Edward L. Hutchinson, aged 28, has been left \$25,000 by a rich uncle on condition that he marry in 16 months. He lives at Syracuse, N. Y., and says he was never kissed except by near relatives.

The State Workmen's Compensation Board has agreed upon Charles J. Howes for assistant secretary to the board, and he will assume his position as soon as James A. Scott, of Pikeville, succeeds him August 10 as Assistant Secretary of State.

W. T. Fowler will no doubt easily beat his opponent F. J. Pentecost for the Republican nomination for Congress in the primary today. It is after today that his real troubles will begin and Dave Kincheloe will see that he does not carry more than one county in the district.

The Henderson Gleaner says the Henderson Fair's success this week is largely due to the extensive advertising given in the papers and in other ways. Large display advertisements were carried in the local papers and this encouraged them to boost the Fair with many free write-ups.

Dr. H. P. Sights, the retiring superintendent of the Western State Hospital, left yesterday for Paducah, where he will again make his home for the present. He is interested in a stock company organized to erect a big sanitarium at Dawson Springs, of which he will take active charge upon its completion, some months hence. Dr. Sights is one of the most popular officials who has ever been connected with the Hospital here and his friends are many, who will be glad to know that his permanent home will be close by. Dr. Sights will retain his membership in The Athenaeum society, of which has been an active and useful member.

Home Coming at Olivet.

Olivet Baptist Church at Howell, Home Coming today on the church grounds with a basket dinner for everybody. An interesting program has been arranged by the pastor, Rev. M. M. McFarland.

Out of Debt.

By raising \$180,000, the Baptist Foreign Mission Board of the South has cleared itself of debt, according to a message received by the Rev. W. D. Powell, secretary of the Kentucky board.

JUDGE BREATH- ITT'S OPINION

Holds That Pro Tem Mayor
Will Now Succeed To
Mayor's Office.

MAYOR F. H. BASSETT.

Indianapolis, Aug. 4.—Plans for the reorganization of the progressive party as a national political organization were adopted here last night at a conference of bull moose representatives. The conference after a heated discussion, decided it would be impracticable at this late date to reassemble the progressive national convention and fill the vacancy on the national ticket caused by Theodore Roosevelt's declination of the nomination for president. Instead the organization will put up an electoral ticket in every state where there is the nucleus of an organization left, bearing the name of John M. Parker of Louisville, nominee for vice president, in the hope of perhaps electing enough presidential electors who might prove the balance of power in event of a close contest between the two old parties.

Among the states in which the plan will be carried out are Louisiana, Maryland, Indiana, Missouri, Wisconsin, Michigan and Minnesota.

J. A. H. Hopkins of New Jersey was chosen treasurer of the rehabilitated bull moose party, and Matthew Hale of Massachusetts, vice chairman of the national committee, will be in active charge of the campaign. An executive committee of fifteen members will be named by Vice Chairman Hale to co-operate with the fifteen members of the national committee who refused to vote for the endorsement of Chas. E. Hughes, at Chicago, June 26, in rehabilitating the party. This committee will meet after the November election to formulate plans for the perpetuation of the party. These plans may include some kind of amalgamation with the prohibition, socialists and woman's parties. Edwin M. Lee, state chairman, Bainbridge Colby and others were named members of the executive committee.

GOOD ROADS ADVOCATES

To Visit Big Rock, Tenn.,
to Make Speeches
Aug. 12.

A big good roads rally, boasting the Stewart county, Tenn., bond issue, will be held at Big Rock next Saturday, Aug. 12. R. E. Cooper, Col. W. R. Howell, Judge Walter Knight and other eloquent and enthusiastic good roads orators from Hopkinsville have been asked to mount the platform in the interest of the issue. A large representation from the Hopkinsville Business Men's Association, with Secretary John W. Richards managing the trip, will go in automobiles to the rally.

Voting the bond issue in Stewart county is of more than ordinary interest to the Hopkinsville business men. It also vitally concerns Clarksville, who will have possibly a larger delegation than Hopkinsville.

Following the Christian county bond issue appropriation, a state road will be built from Hopkinsville to Lafayette. Should the Stewart county officials be persuaded to build from Dover to Weaver's store, instead of from Tobaccoport to the Montgomery county line, it would put Hopkinsville on a direct line with Dover, Fort Donelson and the Cumberland river and make Hopkinsville the principal business place of the Tennessee county.

COMMISSION IS NAMED

Messrs. Cabrera, Bonillas and Pani Will Represent De
Facto Government.

MEETING EXPECTED SOON

President Wilson Awaits
Carranza's Final Word
of Acceptance.

Washington, Aug. 4.—The final word from Gen. Carranza to initiate organization of a joint commission for the settlement of border disputes is expected to reach Washington in a day or two and officials believe the commission's deliberations may begin within a week or ten days.

Official announcement in Mexico City that Mexican commissioners already had been selected was taken as a sign that the American suggestion for broadening the scope of subjects to be considered at the conferences probably had been accepted. Neither the Mexican embassy nor the state department, however, had been officially advised, regarding selection of the commissioners of Gen. Carranza's decision as to the matters they will discuss.

While no formal comment was made at the department in advance of official notification, there was nothing to indicate that the three commissioners named, Messrs. Cabrera, Bonillas and Pani, would not be entirely acceptable to department officials.

COLORED LOT SALE

Next Tuesday in Durrett Avenue Addition.

The Newbury Realty & Auction Co. will hold their third big sale this summer on next Tuesday, when the Harned property recently bought by J. E. McPherson will be placed on the market as an addition for colored people. The property contains 20 acres on Durrett Avenue, just outside the city, and it has been divided into 16 blocks with 16 lots to each block, making 256 building lots.

This is the first addition ever opened in this city to colored people and sold at auction. It offers great possibilities, as much of the adjacent property has already been improved.

The principal streets have been named in honor of prominent colored citizens, viz: Hiram Smith, Postell, Metcalfe, Kirkpatrick, Bronaugh, John Moore and Hawkins streets or avenues.

Prizes are offered.

LOSES AN EYE

As a Result of an Air Gun in
a Boy's Hands.

Richard Cox, a son of R. E. Cox, a young farmer about 30 years of age, had his left eye shot out Wednesday night at his home on the Princeton road, by a young boy named Spurlin, who was playing with an air gun supposed to be unloaded. Some one had loaded the gun without the boy's knowledge. Mr. Cox was brought to the Jennie Stuart Hospital Thursday morning and the shot was found lodged behind the eyeball and both the shot and the eye, were removed.

The Kitty league has been an institution in Western Kentucky. It has been a vital factor in its life but it is tired and needs a rest.

The days of the Kitty are numbered. We say with a tear that it will soon be with us no longer. Requires a pace.

The players are all grumbling because of held-up salaries and are sore at the lack of spirit of the fans.

Unfortunately the people who are satisfied with themselves are seldom satisfied with anything else.

SHORT STOP BY OFFICIALS

Illinois Central Visitation a
Flash In The
Pan.

The representatives of the Illinois Central railroad who it had been announced would pay an hour's visit to discuss matters of importance and meet the prominent citizens of Hopkinsville, failed to arrive on railroad time Thursday and left half an hour earlier than was expected. They walked right in and turned around and walked right out again.

Several committees and groups of business men had made arrangements to go to the train and give the visiting officials a warm reception. A number of business men had matters of business they had intended to talk over with the railroad men but no opportunity was offered to do anything but shake hands. It had been announced that the train would arrive at 11:20 but those who arrived at the depot at this time saw only the observation coach winding around the bend.

Through the energetic work of Passenger Agent T. L. Morrow, however, enough of the business men of the city were on hand to shake hands with the officials of the I. C., and the stop here was not entirely fruitless. The railroad men, headed by W. D. Longstreet, head of freight and traffic department of the South, made the acquaintance of a number of Hopkinsville men.

MRS. ALICE BOYD

Widow of the Late John
Boyd, Died Thursday.

Mrs. Laura Alice Boyd, widow of the late John Boyd, died Thursday night at 10:40 at her home on Walnut street. Tuberculosis caused her death. Funeral services were held at the home yesterday afternoon at 2:30 followed by interment at River-side Cemetery.

Mrs. Boyd had been ill for weeks. She was a native of Christian county. She was a devoted member of the Christian church. Mrs. Boyd had lived in the county until her husband's death when she moved to Hopkinsville.

Her son, Hansel Boyd, and sisters, Mrs. John Hall, of Oklahoma, and Miss Hettie Bobbitt, of Paducah, and one brother, John Bobbitt, of Paducah, survive her.

NEW ORDERS

Sergt. Garber Can Enlist Men
For Company D.

Sergt. Garber has received orders to enlist recruits for the state militia as well as for the regular army, at the recruiting station here. This will prevent any conflict between Lieut. Clark, of Company D, and Sergt. Garber, and Lieut. Clark can if he desires entrust the work here to the regular army officer and look after his work in other towns. So far, few if any, recruits are being enlisted at either office.

First Christian Church.

J. Newton Jessup, Pastor.
Bible School 9:30 a. m. Geo W. Crenshaw, Sup't.

Christian Endeavor 7 p. m. Subject, "The Consecration of Friendship."

Prayer meeting Wednesday evening. Subject, "For Their Sakes I Sanctify Myself." The pastor will preach in the morning on "What Lasts." In the series of Old Testament character studies, the study Sunday night will be "Daniel." A sermon for young men especially.

Clerks At Dawson.

The State Association of County and Circuit Clerks will be held at Dawson Springs next week, convening on Friday, August 11 and continuing until Saturday afternoon.

If women have no one else to tell a secret to they telephone.

It's a pity that poets can't live on food for reflection.

QUIET ON ALL FRONTS

No Change In Positions of
the Contending Armies
Thursday.

TAKES 300 PRISONERS

Italy Believed About to De-
clare War On Germany
Too.

London, Aug. 4.—Thursday passed in all the war theaters without notable gains for any of the belligerents. In the Stokhod region of Russia violent fighting continued between the Russians and Austro-Germans, while German counter-attacks against the British in the Delville wood sector in France, all of which were repulsed, and bombardments characterized the operations in France.

Battles also took place along the Sereth and Dniester rivers in Galicia between the Russians and the Teutons, while in the Caucasus region the Russians near Diarbekar carried out a bayonet attack against the Turks which resulted in the capture of a Turkish work and some 300 prisoners and guns.

In the Travanazan valley of the Austro-Italian theater, the Italians have made fresh progress against the Austro-Hungarians. In the Adige valley, in the upper Posina region and in the district of Cortina d'Ampezzo, the Austrians are bombarding Italian positions.

It is believed that Italy will soon declare war on Germany.

OTHER SIDE WANTS HEARING

In the Squabble Over An Of-
ficial Route From Here
to Cadiz.

The citizens living along the Julien road near the county line held a conference here Thursday night and appointed a delegation to go to Frankfort and appear today before Road Commissioner Rodman Wiley in the interest of the Julien pike as the inter-county seat road from Hopkinsville to Cadiz. The delegation consists of Ike Sallee, Claude Wadlington, Clint Cayce, G. H. Stowe and others. They will of course enter a strong protest against any change being made in the recent orders by which the Julien route was adopted. These protestants are among those who raised \$630 and received an equal amount from the state to build a mile of road from the Christian county line.

The delegation of ten who went to Frankfort Thursday to advocate the Gracey route, returned yesterday. They were given a courteous hearing and are confident the Gracey road will be made the state-road to Cadiz.

REVIVAL CLOSES

With Six Conversions at Brick
Church, Thursday.

A revival of ten days at Brick Church Baptist Church was closed Thursday night with a total of six conversions. The pastor, Rev. F. M. Wilson, was assisted by Rev. E. W. Barnett, of Fredonia. Mr. Barnett returned home yesterday accompanied by Mrs. Barnett, who had been visiting her parents, Mr. and Mrs. W. E. Adcock, near Church Hill.

Dr. Board Lands Job.

Frankfort, Ky., Aug. 4.—The Workmen's Compensation Board elected Dr. Milton Board of Louisville, medical examiner at a salary not exceeding \$3,000 per annum.

It's a pity that poets can't live on food for reflection.

DEMOCRATIC TICKET

For President.
WOODROW WILSON,
of New Jersey.
For Vice President.
THOS. R. MARSHALL,
of Indiana.
For Congress
D. H. KINCHELOE,
of Hopkins County.

Next week the Ferrell's Boys reunion
will be the biggest thing in town.
Not less than 200 will attend, and
there will be something doing all of
the time, from Friday noon till Saturday
night.

The Deutschland safely passed
through the capes and beyond the
three mile limit Wednesday evening
about 8:30 o'clock. No attempt was
made to molest her in neutral waters.
It is now up to her to dodge the allies.

The Ohio Valley Bank, acting as
agent for several clients, sold 20,000
bushels of corn this week to Henderson
buyers at 85 $\frac{1}{2}$ cents a bushel.
This is the highest price paid on the
Henderson market for corn in five
years, and this in the face of the fin-
est corn crop prospects for many
years.

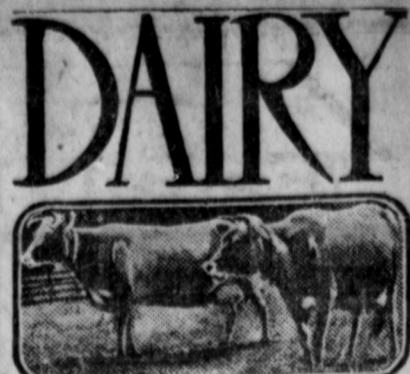

The San Francisco county grand
jury has returned five indictments
charging Warren K. Billings, Thomas
Mooney, Mrs. Rena Mooney, Edward
Nolan and Israel Weinberg with
the murder of eight persons who lost
their lives in a bomb explosion here
during a preparedness parade, July
22.

When Miss Della Runion, aged 27,
of Middlesboro, and Alfred Linton,
aged 40, of Frankfort, met for the first
time Sunday afternoon Cupid was
right on the job. He took steady aim
with his little and arrow, and shot,
and hit the bull's eye with the result
that Miss Runion became Mrs. Linton
on Tuesday, in a little more than 48
hours.

While in bathing on the Kentucky
side of the river Sunday afternoon, a
well known Metropolis, Ill., belle had
the luck to have all her clothing stolen.
When the young lady had finished
her swim, she was horrified to find
her clothing missing, and was forced
to return home clad only in her bathing
suit. A number of friends were
taking a swim at the time. Unless
she had on more summer clothing
when she went to the river than is
usually worn by the Hopkinsville
girls, she didn't suffer a very heavy
loss.

Ninety per cent of the junior naval
officers oppose immediate enactment
of the senate amendment to the naval
bill changing the method of promoting
from seniority to selection by a
commission. Lieut. Commander
Long testified before the house con-
ferees. He recommended that the
measure should be postponed for a
year to allow officers to study it.
"This is being forced upon them," he
said. "It was drawn in Washington
while half the fleet is at sea and without
giving the officers a chance to consider it. It will break the spirit
of every young man in the service."

In ye ancient times armor was worn
over knight.

ESTIMATING VALUE OF CALF

Young Animal Is Worth Practically
Nothing Until Labor and Capital
Have Been Invested.

In estimating the gross product of a
cow it is customary to credit her with
one calf a year valued at \$5 to \$10.
A little clear thinking will reveal the
fact that no such amount can properly
be allowed the cow as a producer of
wealth. The cow should be credited
only with the value of her calf three
days after birth. After that the calf
is not longer the creation of the dam's
internal economy, but the product of
feed that has a market value. After
that time the cow's milk can be sold
for cash in some form of dairy product.
The average cost of production of
milk in the United States is close to
five cents a quart. A husky calf
will consume at least two gallons of

Foundation of Dairy Herd.

milk a day to grow into a \$10 veal at
one month.

That it costs more to veal a calf
than it will ordinarily bring is bad
enough in itself and deserves deliber-
ation on the part of the farmer who
may not have given the matter of cost
systems much thought, says a writer in
an exchange. The point is that the
calf is worth practically nothing until
labor and capital have been put into
him.

If anyone doubts this statement let
him try to sell an ordinary calf when
it is three days old and see what it
will bring. It takes time and effort
and money to bring a calf to the point
where it is productive. Its value at
birth is potential rather than actual.
It would be as reasonable to credit
the cow with a yearling worth \$10 as
a month-old calf worth \$10.

A wellbred, registered calf is worth
a goodly sum at birth because the
purchaser can feed it expensive milk,
grain and hay and still make a profit
on its ultimate value. An ordinary
calf would eat so much before it became
productive that only a thoughtless
person would pay anything for it at
the beginning of its career.

Hence a cow may properly be credited
with the actual selling value of
her calf before any money is invested
in its development.

METHOD FOR DRYING UP COW

No Specific Rule for Such Work—
Judgment and Experience of
Attendant Is Required.

A cow should be dried off for six
weeks before calving. It may take
two weeks to dry her off, that depending
upon the persistency of milk flow.
To dry off a cow the rich feed has
to be removed and the cow allowed
to pasture short grass or eat hay.
Some milk is left in the quarters at
each milking at first; then a milking
is omitted; then the milking is done
every other day, and afterward only
a little milk is taken, as seen to be
necessary. There is no specific rule
for such work, and it requires the best
judgment and experience of the attendant.

GRAIN RATION IS DESIRABLE

Corn-and-Cob Meal, Oats and Cotton-
seed Meal Mixture Is Recommended
for Dairy Cows.

A desirable grain ration for cows,
when corn and oats are used as a
base, is one made up of 300 pounds
of corn-and-cob meal, 200 pounds of
oats and 100 pounds of cottonseed
meal. Feed this at the rate of one
pound for every three pounds of 4
per cent milk produced. In addition
feed as much legume hay and corn
stover as the cows will consume.

HAND STRIPPING IS FAVORED

Some Failures With Machines Due to
Leaving Strippings in Udder—
Last Milk Is Richest.

A milking machine user says that
some failures with the machines are
due to leaving the stripings in the
udder. He believes in saving the last
milk, which is the richest, and hand
stripping enables him to know the
exact condition of the cow's udder
every day.

Commissioner's Sale.

Christian Circuit Court, Kentucky.
Jessie W. West and others, Against
Chas. West and others, Equity.

By Virtue of a Judgment and Order
of Sale of the Christian Circuit
Court, rendered at the June term
thereof, 1916, in the above cause, I
shall proceed to offer for sale at the
Court-house door in Hopkinsville,
Ky., to the highest and best bidder, at
Public Auction, on Monday, 7th day
of August, 1916, between the hours
of 11 a.m. and 2 p.m. (being County
Court Day), upon a credit of six (6)
months, the following described property,
to-wit:

"A certain tract or parcel of land
lying and being in Christian County,
Kentucky, on Blue Lick Fork, of
Pond River, and containing 105 acres
more or less and bounded as follows:

Beginning at a sugar tree, on the
bank of the Blue Lick Fork, of Pond
River; thence N. 20 E. 127 poles to a
stake, in the original line, corner to
that part allotted to Mrs. Jessie West;
thence with her line N. 66 W. 42 poles
to a stake, another of her corners;
thence with another of her lines, S.
20 W. 20 poles to a stake, near a
fence; thence N. 66 W. 34 poles to the
river; thence down the river with its
various meanders, to a hickory and
fallen down beech on the South bank
of Pond river; thence S. 2 $\frac{1}{2}$ W. 62
poles to a stake, on the bank of the
said Blue Lick Fork, of Pond River;
thence up the same with its various
meanders to the beginning. And be-
ing part of the land conveyed to Jessie
West, decd., by Thos. Pepper and
wife by deed of date September 30th,
1840, and of record in the Christian
County Court Clerk's office in Deed
Book "Z," at page No. 274, and sold
to the said Jessie West, for \$1000.
For the purchase price, the purchaser
must execute bond with approved
surety or sureties, bearing legal in-
terest from the day of sale until paid
and having the force and effect of a
Replevin Bond.

Bidders will be prepared to comply
promptly with these terms.

LUCIAN H. DAVIS,
Master Commissioner.
FRANK RIVES, Attorney.

We Know Them.
"Twobble is always being mentioned
for some kind of office. I wonder
why he never gets appointed to one."
"I suspect that's because Twobble's
friends are the sort of people
who wish you well without stopping
to see whether their wishes are
carried out or not."—Birmingham Age
Herald.

9th and Main Streets.

Worth Weight in Gold.

Abingdon, Va.—Mrs. Jennie Mc-
Cal, of this place, says, "I had been
troubled with female complaints, for
over ten years. I could not walk or
stand on my feet, and had been
almost confined to the house, for a
long time. I began to take Cardui,
the woman's tonic, and now I can
walk anywhere I want to go. Cardui
is worth its weight in gold." This is a high estimate on a plain,
herb medicine, yet there are thousands
of women who would gladly pay
this price for a remedy to relieve
their suffering. Cardui has helped
others. Why not you? Try it.
Your druggist sells it, in \$1. bottles.

The Best Book

Of course the best book is the Bible. The man
who said the best book was the pocket book, tried
to say something smart and failed.

A bank book is a better book than a pocket book.
The thief might steal your pocket book, or you
might lose it in many ways. It's gone for good, too.
But in case of accident we will gladly supply you
with another bank book and your funds will always
be secured in our bank. Place your dependence on
a bank book in preference to a pocket book every
time you wish to open an account.

THRONES HINGE HUSBAND SAVED HIS WIFE ON OUTCOME

Little Nations of Europe Anxiously Watch the War Bulletins.

CROWNED HEADS UNEASY

Portugal May Again Be a Monarchy if the Allies Win.

Berlin—Prince Miguel of Braganza, duke of Vizeu, the oldest son of the Portuguese pretender, Don Miguel, and husband of the former Anita Stewart of New York, has been appointed an honorary first lieutenant of the German army, with the uniform of the Sixth Thuringen Regiment of Uhlans.

The prince is 38 years old and lives with his father in the castle of Reichenaau, lower Austria. His appointment as a German officer is an interesting event, because Portugal is at war with Germany. It may have political significance.

Ex-King Manuel of Portugal, who lives in England with his young German wife, is enthusiastically supporting the allies in the hope that England and France will place him on the throne of Portugal.

The central powers, Germany, Austria and their allies, are expected to support Prince Miguel if he tries to capture the crown worn by his grandfather.

The marriage of the prince to Miss Stewart took place in Tulloch Castle, Scotland, Sept. 15, 1909. If the war ends with a victory of Germany and Austria there is a strong probability that the American heiress may become queen of Portugal.

The extinct throne of the now republican nation of Portugal is not the only one whose possession hinges directly on the outcome of the great war.

Besides the obvious possibility that

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a 'chill' every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told my husband if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

the victorious side may unseat some or all of their monarchial enemies, the little nations of Europe have an anxious eye on the war bulletins every day, for their interests are directly affected.

The Germans and Austrians have not decided just what they will do with Servia should they be able to retain their Balkan conquests. Two things are certain. First, Austria will keep a large section of the country and Bulgaria another large slice. Second, no member of the Kara-georgievitch family will be allowed to reign unless the entente allies win. Probably one of the host of the prolific German princelings will get the seat.

Montenegro the situation is clear. King Nicholas and Crown Prince Danilo have taken up their residence in France. If the allies win they will return to their rocky eyrie. If they lose, Prince Mirko, the king's second son, who is now in Austria and hand in glove with his father's enemies, will be installed at Cettinje.

In Greece, too, King Constantine's tenure depends plainly on the great battles now being fought in the east and the west. Greece could never have gained or kept her independence from Turkey without the aid of Great Britain and France.

Constantine has a German wife; in-

deed, the queen is the kaiser's own sister. While basing his actions on patriotic motives, the king's course of conduct has all along been marked by hostility to the kaiser's enemies.

First, he refused to come to the assistance of Servia, as he was bound to do by treaty. He allowed German agitators full sway in his country.

Next, he mobilized his army, thus kept the majority of the population from voting and prevented Venizelos, the popular idol, from taking the place of power which his natural majority of the electorate should give him. In this way the Greek constitution was defied by the king.

The entente powers could not stand

this long. They have forced Greece to demobilize. With the soldiers voting, Venizelos is almost certain to return to power in the elections to be held this summer. He desires that Greece assist the entente.

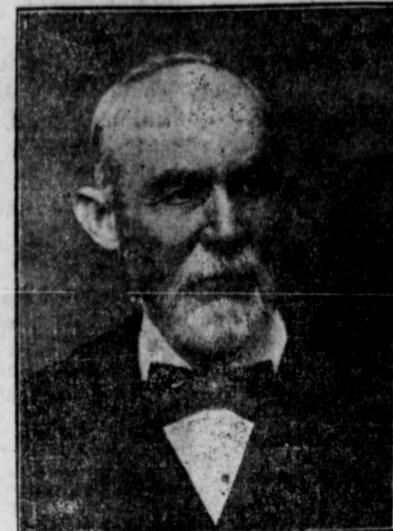

Then Constantine's power will certainly be reduced to constitutional limits and there is fair prospect of his being driven from the throne altogether and probably one of his sons put in his place.

W. R. Bagby, of Muncie, Ind., claims the world's endurance record for piano playing. He played 50 hours this week without stopping or being shot by the neighbors.

Second Annual Reunion Ferrell's Boys

Hopkinsville, Kentucky

AUGUST 11 AND 12, 1916

COMPOSED OF FORMER PUPILS OF

Ferrell's High School

1878-1903

First Day

FRIDAY, AUGUST 11TH.

PROGRAM

2 p. m.—Called to order at Court House. Executive session.

Roll Call.

Informal speeches.

Reports.

4 p. m.—Round Table conducted by Col. M. H. Crump.

5 p. m.—Adjournment.

EVENING

8 to 10:30 p. m.—Reception at Virginia Park. (In case of rain, at Hotel Latham.) Speeches from Pavilion. Public Invited.

Second Day

SATURDAY, AUGUST 12TH.

MORNING

8:30.—Assemble at Hotel Latham for departure by autos for Lake Tandy, four miles from city.

10 to 12.—Business session.

DINNER

2 p. m.—Social session.

3 p. m.—Ananias club, presiding officer to be elected.

4 p. m.—Election of officers.

5 p. m.—Return to city.

EVENING

8 p. m.—Public session at Union Tabernacle.

Exercises will consist of address of welcome, responses, annual address and a program made up of old-time declamations, orations, etc. Roll call of cadets of 1878, and other features.

Among those who will declaim are:

"The Curse of Regulus"	Jno. T. Evans, 1876
"Shall We Give Up The Union?"	James West, 1880
"The Indians"	Green H. Champlin, 1881
"Burial of Sir John Moore"	Ira L. Smith, 1881
"Annual Poem"	GEO. E. GARY, 1878
"Washington and Napoleon"	E. R. Harris, 1891
"Preserve the Union"	W. H. Southall, 1897
"Deathbed of Benedict Arnold"	Virgil C. Pettie, 1896
"Spartacus"	John Stites, 1896
"Parody on Same"	C. O. Prowse, 1893
"The Last Day"	Walter Wharton, 1903
"Apostrophe To Water"	Lee Ellis, 1876
"Rienzi's Address"	Gabe L. Campbell, 1884

OFFICERS

CHAS. M. MEACHAM, 1878, President
H. D. WALLACE, 1877, Treasurer

“The Island of Surprise”

PRINCESS TODAY

BY CYRUS TOWNSEND BRADY

PRODUCED BY THE VITAGRAPH V-L-S-E BLUE RIBBON CO.

IN FIVE ACTS. Featuring William Courtenay, Julia Swayne Gordon, Charles Kent, Eleanor Woodruff, Logan Paul and many other Vitagraph stars.

If you were a man, cast upon a desert island, with two beautiful women—one a blonde, the other a brunette—both professing to be your wife, what would you do? If both of these women were madly in love with you—one professing her love in passionate appeal, the other with quiet entreaties—which direction would your conscience bid you to turn?

And this is only a part of the plot created by Cyrus Townsend Brady in “THE ISLAND OF SURPRISE.”

Cyrus Townsend Brady has undoubtedly established an enviable reputation as an author. Everyone of his sixty-five books has proven to be a success. He seems to be in close touch with the public's desire.

Cyrus Townsend Brady wrote “The Island of Regeneration,” “The Chalice of Courage,” “The Little Angel of Canyon Creek.” Every screen play he has ever written has been a wonderful success and “THE ISLAND OF SURPRISE” will prove to be no exception.

Dorothy Arden (Eleanor Woodruff) is private secretary to Godfrey Lovell, a Wall Street Croesus. His western partner has a daughter named Dorothy (Zena Keefe). Lovell and his partner are desirous of arranging a match between their children. Lovell's son, Robert (Mr. William Courtenay) falls in love with his father's secretary and marries her. He does not tell his father. On account of ill health the father decides on a sea voyage. He is accompanied by his business partner (Anders Randolph), his secretary

and other members of his family. Bob does not know that his newly acquired wife will accompany them. He has meanwhile met Miss Casselis (Zena Keefe) and jealousy and suspicion are aroused.

The two women and Robert go ashore on a lonely island.

While there the yacht is driven out to sea by a terrible storm, leaving the three stranded on the ISLAND OF SURPRISE. In a landslide Robert is injured and temporarily loses his memory. Dorothy, his wife, tries to call to his mind his marriage to her, and Miss Casselis, thinking Dorothy is bluffing, claims Robert as her husband. The three are in dire stress when a band of savages attack them, but Dorothy's forethought enables a torpedo boat destroyer to become aware of their plight. After an exciting battle, the marines land and rescue the trio. A reconciliation takes place between Robert and his wife.

William Courtenay needs no introduction. His name is a household word. Every hamlet in the United States has heard of Courtenay's acting ability. He is a stage star *par excellence* and a screen star in a class by himself.

But alone and unaided, without proper support, William Courtenay would never be able to make “THE ISLAND OF SURPRISE” the wonderful production that it is. The support given him by Eleanor Woodruff, Zena Keefe, Julia Swayne Gordon, Charles Kent, and Anders Randolph will undoubtedly make this Cyrus Townsend Brady story a greater drawing card than “The Island of Regeneration.”

RAISING WHEAT IN CHRISTIAN

County Agent, at Bankers' Suggestion, Elaborates on His Advice to Farmers.

The recent articles written by County Agent Casey and published in the Kentuckian have not only attracted attention and caused much discussion throughout Christian county, but throughout the neighboring counties and even through the state. Another chapter is added in the following correspondence between A. H. Eckles, Cashier of the Planters' Bank & Trust Company, and County Agent Casey relative to this important matter. Mr. Eckles wrote to Mr. Casey and the latter replied at length enlarging on his first article. The letters are as follows:

Hopkinsville, Ky., July 22, 1916.

Mr. A. M. Casey,
County Agriculturalist,
City.

Dear Mr. Casey:

Several days ago we read an article in the local papers from which the impression has been left upon the minds of a number of farmers that you suggested a discontinuance for a period of raising wheat in this county. We think that a careful reading of

the article will establish the fact that it was more of a suggestion that other plans and methods be adopted and that you did not really intend to leave the impression that you advised the people of Christian county to cease the production of wheat, one of our principal crops.

No doubt you have clearly in mind a better plan of rotation of crops and the proper method of bringing back the necessary fertility of the soil of this county for small grain crops, and therefore we will thank you to write us fully your recommendations relative to correcting, if possible, the low average per acre of wheat production in this county for the last three or four years.

On account of the low acreage of the production of wheat in this county for the past four years it has cost the farmers something more than a million dollars and so it behoves us to look into this problem at once, and put intelligent and effective efforts back of it, thereby saving many thousands of dollars to the farmers and other people dependent upon their successes.

Thanking you in advance for your information in this matter, that we may help you disseminate your views, we beg to remain,

PLANTERS BANK & TRUST CO.
By A. H. Eckles, Cashier.

Hopkinsville, Ky., 7-29-16.
Mr. A. H. Eckles, Cashier,
Planters Bank & Trust Co.,

Hopkinsville, Ky.
Dear Mr. Eckles:

I am in receipt of your favor of the 22nd inst., in which you state you read an article in the local papers from which the impression has been left upon the minds of a number of farmers that I suggested a discontinuance for a period of the raising of

wheat in this county.

In answer to your inquiry, I will say that the main reason for writing the article in question was to call the attention of the good farmers and others in Christian county to the wheat problem, to something they already know, and not to decry wheat as a staple crop; but to suggest a method by which more wheat than ever may be raised in this county.

A man may know a thing, but it is necessary for him to really get his mind on it, and think it over carefully and seriously before he can evolve a better method to a desired end.

In the first place I consider that wheat should be one of the staple crops of Christian county, provided, of course, it can be made profitable, which it can.

You say in your letter that on account of the poor yield for the last four years wheat has lost the farmers of Christian county something more than a million dollars. Now, at this rate, it certainly looks like “Love's labor lost” to me, but I believe that with better methods, wheat can be made a profitable crop here. In the first place, there has been too much grain farming, and too little live stock farming in Christian county. Too much land turned up to the sun in the hot months of July and August, and too much wheat after wheat which has resulted in a loss of humus and also resulted in the Hessian fly.

In a previous article I suggested that where wheat could not be grown with profit it would be better to sow the corn and tobacco land in Crimson Clover with Rock Phosphate or manure, or manure and rock phosphate turned under the following spring for corn and tobacco. In this way, the land can be improved and profitable crops grown. In a few years, by this method good crops of wheat can

be grown on corn and tobacco stubble, thus doing away with summer

fallowing. More grass lands should be maintained, and more permanent pastures and gradually more live

stock as conditions warrant. The use of lime, phosphates, legumes and manure are the agencies through

which better wheat crops may be produced. It is to be hoped that the government may succeed in perfecting the propagation of the Ichneumon Fly to such an extent that it's ravages on the Hessian Fly will result in practically eliminating the latter. The wheat fly is certainly a big factor in the low yields of wheat in Kentucky.

The following rotations are suggested as an improvement over present methods: Corn the first year with Crimson Clover sown in corn turned under the following spring by soy beans; wheat sown in soy bean ground, and clover sown in wheat the following spring. This plan would give three legumes in four years, and supply the necessary nitrogen to grow profitable crops of corn, wheat and tobacco. It is claimed by some that wheat does not do well after soy beans, and this plan is suggested with a view to getting the land in shape for a three year rotation as follows:

Corn the first year followed by wheat the second year and clover the 3rd year. If the four year rotation is used the soy bean could be hogged down and some of it cut for hay or a seed crop. For several years to come the seed crop should be a very profitable one, as soy beans will make from ten to twenty bushels per acre, and sell from \$2.25 to \$2.50 per bushel most of the time.

Another plan would be to plant soy beans, the first year, corn the second year, followed by wheat and clover. In case the soy beans could be harvested in time, crimson clover could be sown afterwards to be turned under for corn the following spring, thus getting three legumes in a four year rotation.

If the farmers of Christian county adopt the four year rotation, the yield of corn, wheat and tobacco will be greatly increased. There should be more permanent pasture land used

in conjunction with this method.

From the Census reports the production of wheat has steadily increased in Christian county from 103,833 bushels in the year 1840 to 732,692 bushels in 1910; corn from

1,022,850 bushels in 1840 to 1,570,784 bushels in 1910; hay from 457 tons in 1840 to 30,307 tons in 1910. While the production of live stock

has steadily decreased. There were 18,196 sheep in Christian county in 1840 and only 7,862 head in 1910; and of swine 52,562 head in 1840 and 29,087 in 1910. There were 15,053 head of cattle in 1840 and 11,596 head in 1910. If more live stock were handled on the farms and the by product

returned to the soil more wheat on the same acreage will be the result if proper methods are used.

Trusting I have made clear my idea of a method to increase the yield of wheat and tobacco on the lands of western Kentucky, I am

Sincerely yours,
A. M. CASEY,
County Agent.

First Accidents.

The Kentucky Workmen's Compensation Board has received notification of two accidents, both of which occurred in Louisville. Names are withheld with a view to discouraging “ambulance chasing.”

W. A. Rugg is a candidate for State Senator in a California district and the voters are preparing to lay him out. His initials are not popular.

Jersey Cattle Sale

M. S. Major, of Herndon, this county, will offer for sale at the Courthouse door in Hopkinsville the first Monday in August some Jersey cattle of the best family of England and the United States. If you need anything of the kind do not miss this sale.

PURELY PERSONAL

Manning Brown has returned from Detroit, where he has been working this summer.

Stanley Bassett has returned to Kansas City, after spending the vacation here.

Miss Mary Neville Hancock has returned from a trip to Cerulean.

Mrs. G. H. Kennedy has returned to Mayfield after a visit to friends here.

Misses Dorothy Richards and Margaret Rives, of Hopkinsville, are guests of Miss Geneva Williams. *** Hubert, son of Mr. and Mrs. D. E. Foster, has been ill the past few days of appendicitis. He was taken to the hospital in Hopkinsville yesterday for an operation.—Pembroke Journal.

Rob Shaw, of Cadiz, was in the city yesterday on business.

Judge Douglas Bell is at Dawson Springs.

Miss Emma Wilson is visiting her sister, Mrs. D. M. Spears, in Cadiz.

Dr. and Mrs. C. L. Wagner, of Elkton, were in the city Wednesday.

Prof. and Mrs. E. N. Mallary have returned to Hopkinsville, where they will remain until time for Prof. Mallary to take up his duties on the high school faculty this fall.

Mr. and Mrs. Will Summers are at Dawson.

James R. Williams and family, of Louisville, arrived Thursday evening for a ten days' visit to relatives here and near Beverly.

William Hewell, of Knoxville, Tenn., arrived this week for a visit to relatives here and at Rose Hill, Tenn.

Prof. Grover C. Koffman has returned from Humboldt, Tenn., where he has been spending his vacation. Prof. Koffman will be at the High School this week straightening up his business.

-RIGHT NOW-

is the time you should begin using Ellis' Distilled Water. Tomorrow may be too late to save yourself or some member of your family a serious illness. It is true you may not get sick; but the chances that you will are very much greater unless you use PURE water. It is well known that a large per cent. of sickness, and especially fever, is caused directly or indirectly by impure water. For a few cents per week you can eliminate these chances and at the same time have the BEST water you ever used.

Can you afford to take the risk when there is so much to gain and nothing to lose?

MAKE GOOD USE OF PALACES

Royal Residences in Europe Have Been Converted Into Hospitals for Wounded Soldiers.

The necessities of war have transformed the uses of the royal palaces of Europe. They are nearly all turned into hospitals. Such are the Winter palace on the Neva, the Kremlin at Moscow, Tsarskoe Selo and Livadia, and in Italy not only the Quirinal and Queen Margherita's palace in the Via Veneta, but the queen is directing a military hospital in a wing of the Vatican.

Not only have Verona and Monza been put at the disposal of the war office, but the pope has done the same with Castel Gandolfo.

The Elysee palace is given over to war work, and Buckingham palace is not a hospital simply because there is no need for it, so the king and queen use it largely to receive soldiers and to entertain the wounded.

The palaces at Berlin and elsewhere in Germany are all turned into military hospitals, and the Germans have devoted King Albert's palace at Brussels to the same use. The English turned the kaiser's stately pleasure palace, the Achilleion, on the Ionian island of Corfu, in Greece, to the same purpose for the benefit of the Serbian army.

The wife of Ferdinand has made part of his palace at Sofia into a military hospital, but the Austrian invaders of Montenegro used the palace at Cetinje as barracks.

MADE HIT WITH MANSFIELD

Actor Quick to See Good Piece of "Business" in Error of One of His Supporters.

Now that Arnold Daly is reviving "Beau Brummell," various anecdotes of the late Richard Mansfield, who created the title role, are being revived. W. J. Ferguson, who acted the valet in the original production and who is now one of the pirates in "Treasure Island," has remembered one.

In the character of the valet it was Ferguson's place to hand the Beau his gloves, his stick, and finally his hat. Upon the opening night he professed the hat to Mansfield, turned the wrong way around. Had the Beau put on the hat in the way it was handed to him and strolled down Picadilly or Bond street, the faux pas might have created a scandal. When Ferguson discovered his error he turned pale under his make-up.

Mansfield was quick to grasp the situation, and with one of his most courtly bows gave the hat back to the valet, so that he might turn it around, which Ferguson did with pantomimic apology.

As Mansfield put on the hat and passed out of the door he whispered to Ferguson: "That's a good piece of business; keep it in."

LISTENING OVER TELEPHONE.

Listening in on the telephone is not new thing, nor is it peculiar to New York. A newspaper correspondent in Dover, England, was summoned under the defense of the realm the other day for attempting to elicit information and for communicating information concerning the movement and disposition of troops which might be of use to England's enemies. The defendant, it was alleged, gave important information to a press agency over the telephone. In accordance with instructions, the telephone supervisor listened to the conversation and took it down in writing. For the defense, however, it was contended that the information was commonplace. The magistrates upheld this view and dismissed the summons.

WOULD SAVE EXPENSE.

"Well, doctor, if I got to die, I die contented. My life insurance is ten thousand dollars."

"I think, with the aid of stimulants, I can keep you alive for a week longer."

"Don't do it, doctor. The premium comes due the day after tomorrow."—Boston Evening Transcript.

LITERAL.

"So young Biffens married beneath him, did he?"

"Yes, the girl lived on the first floor of the same apartment house."

THE CAUSE.

"Binks is the most wide-awake man I know."

"Such enterprise?"

"Nope; bad case of insomnia."

AT THE CHURCHES.

Strangers in the city and the public are cordially invited to all services at the following churches:

Pure Drinking Water Important.

You should be extremely careful that the water you drink is pure. Typhoid germs are particularly likely to harbor in water that stands and to get into water which is in the sluice of some drain. Boiling will kill the germs and the peculiar flat taste which it then has can be easily overcome by shaking it up thoroughly and injecting a dash of carbonated water.

We Grind Our Own Lenses

We have just put in a complete Lens Grinding Plant and can save you money on Glasses. Broken Lenses duplicated while you wait. YOUR EYES TESTED and Glasses accurately fitted. We guarantee Satisfaction.

The popular price Jeweler and Optician. Watch Inspector L & N. R. R.

Be sure you are right—but don't be too sure that everybody else is wrong.

Fruit Is Healthful.

Fruits are not only wholesome as food but often act beneficially as medicines. The acids of some fruits are good destroyers of disease germs and tend to restore as well as keep the organs of secretion and the whole digestive tract in a healthy condition.

SWEET CLOVER SEED

Direct from grower. White and biennial yellow; hulled and unhulled. Special scarified seed for fall sowing. Also pure sweet clover extracted honey. Prices and circulars sent free.

JOHN A. SHEEHAN,
R. D. NO. 4 FALMOUTH, KY.

MONEY TO LOAN.

We have \$200,000 to loan on improved farms in Trigg and Christian counties at reasonable rates of interest on one to ten years time. Quick service, no red tape. We also have several buyers for farms in Christian county.

THE A. C. BURNETT CO.,

WAR! What Is It All About?

Has the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armour glistening just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 maps and many specially prepared articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages, showing between the powers a clear, vivid, accurate and complete, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffable impression.

MOST VALUABLE FARM CROPS

Trouble Experienced in Growing Clover, Alfalfa, Peas, Etc., Where Not Grown Before.

Legume crops (clover, alfalfa, peas, etc.) are among the most valuable of farm crops. Trouble is experienced at times, however, in growing them in new agricultural districts or regions where legumes have not been grown before. This difficulty oftentimes is due to the absence of the necessary tubercle bacteria from the soil in question. The practice should be followed, therefore, of inoculating the soil or seed when any of these crops are grown upon ground which has never grown the crop before.

This inoculation may be made by the use of soil from a field in which the legume has grown. This soil should be obtained from the old legume field and distributed over the field to be sown in legumes at the rate of approximately 300 pounds per acre, and at once harrowed or disked in. This operation should take place during the morning or evening or upon a cloudy day, as the intense sunlight destroys the bacteria. Care should be exercised in making this transfer of soil to get it from fields which are not infested with weeds.

Should such soil not be available, Dr. Ira D. Cardiff, director and botanist of the Washington agricultural experiment station, states that the next best method of procedure is to use a pure culture of bacteria which may be mixed with the seed before it is sown.

STARTING WITH LIVE STOCK

Grading-Up Method Recommended as Best Beginning—Use Best Pure-Bred Sire Obtainable.

The average farmer starting into the live stock business is not in shape financially to purchase purebred stock and conduct the business the way it should be. Purebred breeders should not try to set men up in the breeding business who have but very little money and practically no experience. An amateur, starting under such conditions, is almost sure to fail and instead of being a booster for better live stock, curses the breed that lost him money and the purebred breeders in general.

Those without considerable experience and some capital, wishing to start in the live stock business, will find the grading-up method the best in use.

Grading up a herd by the use of a purebred sire is the safest beginning,

Splendid Beef Type.

even for the prospective breeder of purebred stock. It is not only a cheap and safe way of starting in the breeding business, but it brings out plainly in the grades the main breed points and proves what good blood will do. Only a few generations of grading up will be sufficient to place before you a picture of breed characters not seen in years in purebred breeding on a small scale. The only danger in the beginner grading up a herd is that the first results are so satisfactory that to improve the next generation some promising grade is apt to be selected as a sire, which means the stopping of any further improvement.

By all means use a purebred sire as good and well bred as your financial condition will permit.

VENTILATION FOR BROODER

To Be Satisfactory Arrangement Must Be Made for the Introduction of Fresh Air.

A brooder in order to be satisfactory must have a provision for constantly introducing fresh, warm air under the hover for the chicks to breathe. A warmed box with no provision for effective ventilation compels the chicks to breathe the same air over and over again and it soon becomes practically poisonous.

FITTING COLLARS ON HORSES

Splendid Idea to Make Them Fit Snugly to Avoid Danger of Injuring the Shoulders.

In fitting collars on horses it is well to make them fit snugly. So long as the band will pass readily between the front of the collar and the horse's neck at the bottom and sides, there is no danger of injuring the shoulder. The hames should then be carefully fitted to the collar.

A Strange Story.

Argyle, Mich.—Mrs. Wm. H. Carson, in a letter from Argyle, says: "I was almost wild with pain in my head, and other severe pains, due to womanly troubles. Cardui gave me great relief at once. Further use of Cardui raised me from my bed of agony. Cardui saved my life, and I can't be thankful enough for what it did for me." Whether seriously sick, or simply ailing, take Cardui, the woman's tonic. As a general tonic for women, to improve the appetite and build up the constitution Cardui is in a class by itself. Those who have used it say it does the work; it relieves, it cures. Try it. Your druggists have it.

Oranges, per dozen	30c to 50c

A Woman's way is generally the other way.

But He Died Young.

"I once knew an eccentric man," stated old Festus Pester, "who when he had got the desired number on the telephone did not demand fiercely, 'Whizz ziss?' Instead he invariably said civilly, 'This is John J. Poppendick, wishing to speak to Mr. Buckover.' His funeral was the largest ever held in the neighborhood where he had resided, and thereat strong men broke down and wept like children, being convinced that they would never again see his like."—Judge.

A Terre Haute man calls his wife Misery because she likes company.

MEN IN MIND IN HOPKINSVILLE

Prominent Factors in The Busy Life of the Pearl City.

BIOGRAPHICAL SKETCH NO. 106.

Leading Tobacconist and Man of Affairs, One of The City's Most Prominent Men.

JAMES WEST.

Easily one of the city's most prominent business men from any standpoint, is the leader of public affairs whose well known features are portrayed above. He is a home product, too.

James West was born in North

Christian, a few miles east of Crofton, on Feb. 11, 1861. His father was Henry M. West, who was descended from one of the county's earliest North Carolina pioneers, who came before the end of the eighteenth century to build his home in the wilderness. Like all of the early pioneers he chose to locate where timber, water and wild game were plentiful when he might have gone "to the barrens" a few miles southward, now the garden spot of Western Kentucky. Not many years after the birth of James, his father sought to reverse the judgment of his ancestor by removing to a farm south of Hopkinsville in 1868. Here the subject of this sketch and other boys of the family grew to manhood and in time took their places in the "world's wide field of battle." James saw but little of his father during the early years of his childhood, for hardly had he been born when his father answered his country's call and became a soldier of the Union. He was made a Captain of the 17th Kentucky and served under Grant at Shiloh, later with Sherman in Georgia and still later with Bragg in the Tennessee campaign.

James West was educated in the common schools of the county and in 1878 entered Ferrell's High School and took the first honors of his class in June 1879. As soon as he got out of school he made his first money teaching in the county schools for two years. In 1882 he was seized with a desire to roam and wound up in Texas where he located at a little place called West, probably named in his honor, and tried his hand at running a country store. It took him two years to get enough of this and com-

ing back home in 1884 he took a course in a Business College and found a job in the grocery store of the late E. W. Henderson in 1885. The following year he became shipping clerk in the tobacco warehouse of Gant & Gaither and found his life work laid out before him. His success was by a series of promotions and business advancements and leading to the position he now occupies at the head of the city's commercial interests.

After a successful warehouse career of 11 years, he organized the Commercial and Savings Bank in 1906 and was president of the institution for two years when it was consolidated with the Planters Bank and he remained with the consolidation as president for a year longer. In 1910 he went back into the warehouse business as the head of the firm of James West & Co. In 1912 and 1913 he was made district manager of the Planters' Protective Association. In 1915 he organized the West Loose Floor and has since been its president and sales manager. Though always a busy man, Mr. West has filled a number of positions of honor and trust. For eight years he was chairman of the Democratic Committee of Christian county, during which time the Democrats won their first sweeping county victory in 1905.

Previous to that time he had served four years as a member of the city council. Recently he has been appointed by Congressman Cantrell, chairman of the Democratic Campaign Committee as advisory committee-man for the Second Congressional District.

Mr. West was one of the organizers of the Y. M. C. A., was a stockholder

in the Union Tabernacle and in fact in every other public enterprise that has been put on foot locally for 25 years. He is a member of the First Presbyterian Church and Superintendent of the Sunday School of his church. He has been a member of the Masonic order for 30 years.

Mr. West has been twice married. His first wife died a number of years ago and one child survives her, Mrs. H. H. Harned, of Dawson, Ky. Ten or twelve years ago he was married to Miss Ella Black, of Caldwell county, and they have one child, a bright boy now in school. Mr. West lives in a handsome home on Walnut street.

Baseball.

STANDING OF KITTY LEAGUE.
